### Enhancement:

ID	Description
6124	Support color at fast menu button.
6125	Support Set Service Type function.

*Document Prepared by CY*

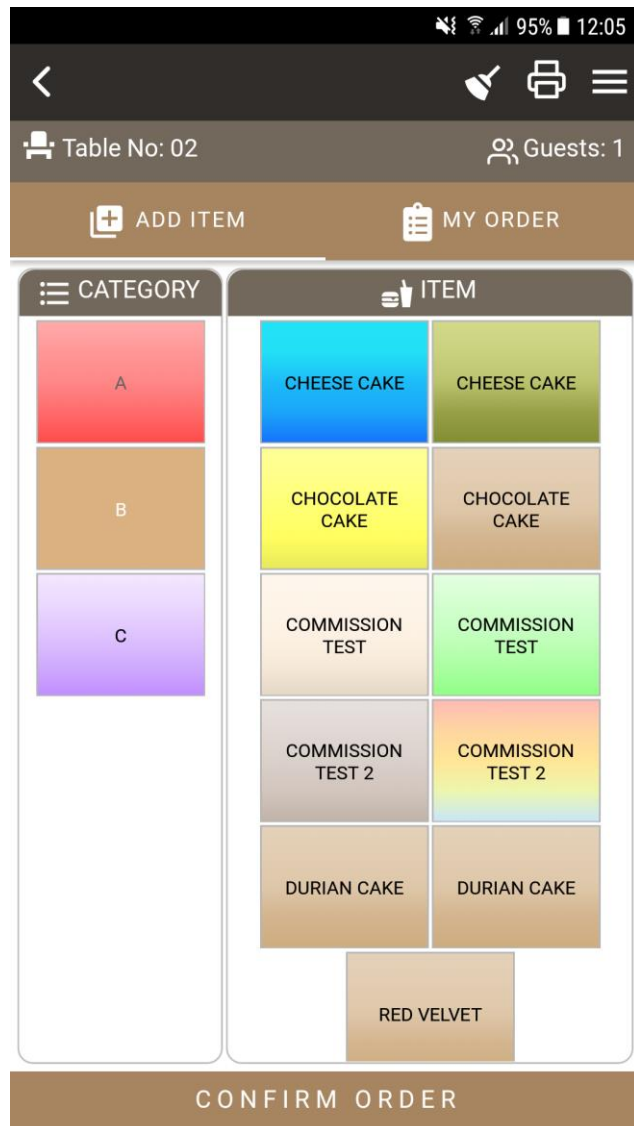

*Last Modified 06<sup>th</sup> April 2020*

## Highlights of Changes in 1.5.8

### ID: 6124 Support color at fast menu button

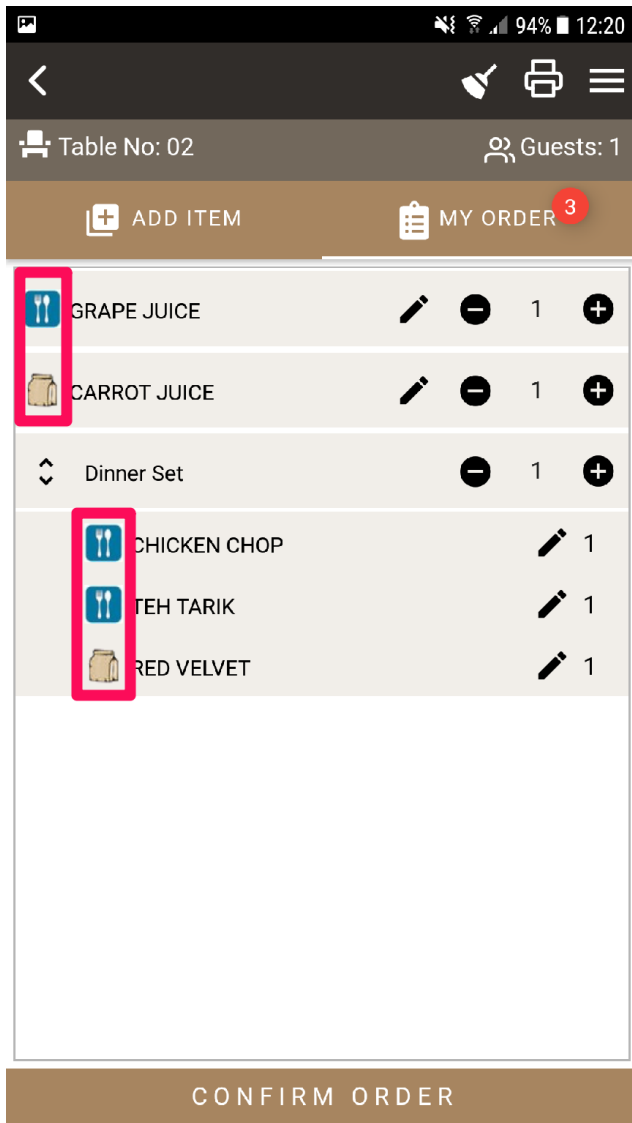

Our eWaiter Fast Menu Button is now able to display the color according to the setting you set in back-end Fast Menu Selection Maintenance.

In order to set colors for fast menu button in back-end, go to *Point of Sale > Maintenance > Fast Menu Selection Maintenance > Menu Design > Design Menu Header / Design Menu Detail*.

### ID: 6125 Support Set Service Type function

We had added Set Service Type function in this version of eWaiter. You are allowed to set the Service Type for normal item, Set Meal item, and also Item Package as well.

In order to set Service Type in eWaiter, just *tap on the item* that you want to set Service Type, tap on *Service Type button*, and then *select the Service Type*.

Use the same method for Set Meal and Item Package as well.
